INTRODUCTION AND GENERAL INDEX

— — — — —

R. L. POLK & CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the latest edition of the Mount Vernon City Directory, which also includes Knox County rural route residents.

Confidence in the growth of Mount Vernon's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Mount Vernon to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Mount Vernon Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order: —

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Mount Vernon, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Mount Vernon, and the name, official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the listing of telephone numbers.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the inter-

secting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, new householder symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

V. THE KNOX COUNTY RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Mount Vernon. There are more than 800 of these Directory Libraries installed and maintained in cities and towns throughout the United States, Canada and Puerto Rico through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The first white man known to have viewed the present site of Mount Vernon was John Stilley, who, when a captive among the Indians, traversed Owl Creek (present Kokosing River) from its mouth upward, in June, 1779.

The first white man to locate within the present Knox County limits was Andrew Craig, who came from the mountainous region of Virginia, and built his cabin close to the little Indian Field, located where Center Run enters the Kokosing River, on the southeastern edge of the city. Here he lived when Mount Vernon was laid out in 1805 by Joseph Walker, Thomas B. Patterson and Benjamin Butler.

One of the settlers, being from the region of the Potomac River and thinking of the consecrated spot on its shores, suggested that the town should bear the name of Mount Vernon.

The first settlers were from Virginia, Maryland, New Jersey and Pennsylvania, and many of the direct descendants of those hardy pioneers still reside in this locality.

A frequent visitor to the settlement in the early days was the famous character in Ohio history, known as Johnny Appleseed (John Chapman). He is given credit for planting some of the old apple orchards in the county, and at one time owned two lots in the original plot of the village. These lots were located at the end of S. Main St., next to the river.

Knox County, of which Mount Vernon is the county seat, is one of the richest agricultural counties in the state and leads in the raising of poultry, hogs and pure-bred sheep. It is the largest sheep-raising county in Ohio.

Mount Vernon is located on the Pennsylvania Railroad, 90 miles from Cleveland and 45 miles from Columbus. It also is located on the Wheeling-Chicago division of the B&O/C&O Railroad, giving direct connections to the great market centers. 15 motor-freight lines give intra and interstate service. Daily pick-up and delivery of air freight and express.

Mount Vernon has two banks and 3 building and loan associations. These institutions are well managed and have facilities to take care of demands far in excess of the present requirements.

The educational facilities of Mount Vernon are excellent. The public high school is modern in every way. A new Senior High School and one new grade school and additions to three other grade schools have been constructed recently. A new Junior High building is now in use. The Knox County Joint Vocational School with courses covering High School subjects, business, trade and industrial skills (day-evening classes), has 551 in-school enrollment and 2,200 adults in evening classes. The Catholic and SDA grade schools are of a very high standard. The Mount Vernon Academy operated by the Seventh-Day Adventist Church at nearby Academia with 360 students enrolled, is well and favorably known, and draws students from all parts of the world. The Mount Vernon Bible College at Bangs with an enrollment of 240, has a theological education program. Five miles east at Gambier, is Kenyon College where 1,450 students are enrolled. It is Co-Educational as of 1969. Many of the most famous men in American life were graduated from Kenyon College, including President R. B. Hayes and Edwin M. Stanton.

Mount Vernon Senior High School

KNOX COUNTY JOINT VOCATIONAL SCHOOL

Mount Vernon Nazarene College opened in October of 1968 with an enrollment of 300. In 1973 enrollment increased to 490.

Mount Vernon is honored in the history of America's national music, being the birthplace of Daniel Decatur Emmett, immortal as the author and composer of "Dixie," that song so beloved of the Southland, and now one of the national songs of a re-united people. His last resting place in beautiful Mound View Cemetery is a shrine for all who honor and revere his memory.

Mount Vernon is known as "Ohio's Colonial City." Millions of dollars in Colonial architecture provides Mount Vernon with a tourist attraction that is becoming increasingly important. Over 10,000 trees have been planted. During the second week of May there are Dogwood Trail Tours through the city and nearby rolling hills. A beautiful sight to see. Tour maps are available at the Chamber of Commerce. In 1965, Mount Vernon was named an All-America City by Look Magazine and the National Municipal League. This honor has brought wide fame to the city.

Industry is diversified and has experienced a sound and steady growth in Mount Vernon. Labor-management relations have a record of friendly cooperation. The principal industries now include:

The Cooper-Bessemer Company, manufacturers of gas engines, gas-diesel engines, diesel engines, marine engines and compressors, jet gas turbines.

The Continental Can Company, printers and converters of laminators, cellophane, pliofilm, foils, paper and coatings.

The (P P G) Industries, automobile and window glass.

Chattanooga Glass Co., manufacturers of milk bottles, Mason jars, Coca-Cola bottles.

The Loma Linda Food Co., soybean food products.

The Weyerhaeuser Company—Shipping Container Division corrugated cardboard containers.

Edmont Inc., glove manufacturers.

Mount Vernon Block Co. Concrete Products.

A M G Industries, metal rings, seals and gaskets.

Kit Mfg. Co., mobile home manufacturers.

Wenco, Inc., manufacturers of glazed windows and doors.

Buckeye Culvert, Inc., corrugated pipe and gauges.

Electric power is furnished by the Ohio Power Co., which has made facilities for providing power for any size industry. Telephone service is furnished by United Telephone Co. of Ohio. Natural gas is provided by the Columbia Gas System, and the Ohio Cumberland Gas Co. City water comes from artesian wells and is softened in a modern municipal softening plant. This plant has been increased in size and an additional new reservoir, located on a high point east of the city, has been constructed, providing ample facilities for the future growth of Mount Vernon.

Health conditions here are unexcelled in the state. Two modern hospitals serve a large section of central Ohio, Mercy Hospital and the B. W. Martin Memorial Hospital. The Mount Vernon State Institute, a multi-million dollar institution, is located near Mount Vernon.

An active American Red Cross Chapter, the Knox County Chapter is located in the Memorial Building. An excellent Blood Program is a chapter accomplishment whereby the blood needs of every resident in the county are supplied by virtue of residence. Ten bloodmobile collections per year. Over 800 volunteers give service to the community through the different programs.

Knox County Memorial Theatre Building

Mount Vernon has:

A beautiful Memorial Building with a large public auditorium, seating 1,000; furnishing facilities for civic meetings and concerts.

A state armory building providing another large area for public affairs.

A shopping center district.

A handsome post office building, occupying half a city block in the business section.

Seventh Day Adventist Church (one of 22 denominations in Mount Vernon)

A modern public library.

A new Y. M. C. A. has been built with a million dollars donated by Knox County citizens.

A country club with a fine golf course and swimming pool, beautifully located in the hills overlooking the city and surrounding country.

5 public golf courses.

25 churches, representing practically all denominations.

4 city parks for recreation.

A community swimming pool and recreation area.

A retail section occupying sixteen city blocks, with stores and shops equal to any city in Ohio. Four parking lots provide free parking facilities for customers in the downtown area.

The Mount Vernon Area Chamber of Commerce employs a full-time staff and maintains office facilities and services of high quality.

An up-to-date City Directory Library is available for use in the Chamber offices.

The citizens of Mount Vernon are determined that proper planning will be done now to make ready for the future growth of the city.

EVERY STORE

should appear in the Directory and the Directory should be in Every Store.

Besides its use to the storekeeper, it is a convenience the customer expects.

The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

"r" — RESIDENT

"h" — HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

The best of references in the financial world

Leaders of finance everywhere prefer Polk's Bank Directory.

They know they can rely on the purple-bound volume for the accurate, up-to-date information they need in their business.

Published every March and every September, Polk's Bank Directory carries detailed information on all North American banks and their branches. It also includes data on banks throughout the world, government financial agencies and banking and financial trade associations.

If you need financial facts, you need Polk's. And once you use it, you too will call it *the best of references*.

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS'
GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED ★

Do your employers
furnish you with the
latest edition of the
City Directory

?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS'
GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . **EXTENDED** ★

Street and Avenue Guide Including Telephone
Numbers, Home Owner Symbols
and Zip Codes

1974

Star ★ Preceding Name Indicates NEW HOUSEHOLDER This Edition.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable; in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to alphabetical list of names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Star appearing between street number and name of occupant denotes new householder this edition.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Zip Code numbers are shown immediately following each street description. If a street runs through more than one zone the new zip code number is shown immediately preceding the lowest street number in the new zone.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "no return." In each case the publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

HOW TO LEARN OCCUPATION AND NAME OF EMPLOYER

Credit, Sales and Advertising Departments can quickly check this vital information regarding customers and prospects. Responsibility, probable approximate income and similar questions can be answered instantly by referring to your Directory. Complete information is provided on every employed person.

SERVICES OF R. L. POLK & CO.

MARKETING SERVICES

Polk offers a full range of services to help businesses increase their sales volume. One of Polk's principal services is custom-produced selective mail advertising for many of the nation's leading advertisers. Other services include: Mailing and prospect lists, couponing and sampling, data processing services, publishing of controlled-circulation magazines, contest administration, fulfillment services, consumer and market research, warehousing and shipping and creative services.

AUTOMOTIVE STATISTICS

Polk has served as statistician for the automotive industry for more than 40 years. Polk's total count of cars, trucks, motorcycles and trailers, by make and year model, is the only annual inventory of the nation's wheeled population. Polk's new car and truck reports furnish manufacturers and dealers with regular capitulations of all sales for each territory. To produce these statistics, Polk maintains one of the largest electronic data processing installations in the country. By using Polk statistical services, American business can plan intelligently its production, distribution and sales.

CITY DIRECTORIES

Polk City Directories are published regularly for more than 1,400 North American cities. Each Polk Directory is the one complete inventory of residents and businesses in the community for which it is published. The facts compiled for a City Directory include the name, address, occupation and marital status of each resident; the name, address, ownership and classification of each business. The vast fund of information in a Polk Directory helps bring together buyers and sellers, facilitates credit, speeds deliveries and communication and stimulates business generally.

BANK DIRECTORY

Published semi-annually, Polk's World Bank Directory is recognized as the outstanding reference book in the financial world. The directory carries detailed information on each of the nation's banks, showing officers, directors, branches, statement and other data. The book also includes a Summary of United States Banks, charts and statistics and a listing of governmental banking agencies and banking organizations. Polk also offers financial institutions a portfolio of marketing, advertising and research services.

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

CAUTION

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of R. L. Polk & Co. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.
