INTRODUCTION AND GENERAL INDEX

— — — — —

R. L. POLK & CO., publishers of more than 1,400 city and suburban Directories, presents to subscribers and the general public, this, the latest edition of the Mount Vernon City Directory, which also includes Knox County Rural Route Residents.

Confidence in the growth of Mount Vernon's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the City Directory is a mirror truly reflecting Mount Vernon to the world.

The enviable position occupied by R. L. POLK & CO.'s Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Mount Vernon City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:--

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings--a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Mount Vernon, the necessity of having this kind of information up - to - date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Mount Vernon, and the name, official personnel, nature and address of each firm and corporation in the city. A special feature of this section is the listing of telephone numbers.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers, new householder

symbols and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper. This section includes the full name and address of businesses and householders.

This publication also contains a Knox County Rural Route Directory printed on white paper immediately following the Numerical Telephone Directory.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Mount Vernon.

The Mount Vernon Directory Library

Through the courtesy of the publishers of the Mount Vernon City Directory, a Directory Library is maintained in the offices of the Chamber of Commerce, for free reference by the general public. There are many of these Directory Libraries installed and maintained in cities and towns throughout the United States and Canada through the courtesy of your Publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

General Review

The first white man known to have viewed the present site of Mount Vernon was John Stilley, who, when a captive among the Indians, traversed Owl Creek (present Kokosing River) from its mouth upward, in June, 1779.

The first white man to locate within the present Knox County limits was Andrew Craig, who came from the mountainous region of Virginia, and built his cabin close to the little Indian Field, located where Center Run enters the Kokosing River, on the southeastern edge of the city. Here he lived when Mount Vernon was laid out in 1805 by Joseph Walker, Thomas B. Patterson and Benjamin Butler.

The first settlers were from Virginia, Maryland, New Jersey and Pennsylvania, and many of the direct descendants of those hardy pioneers still reside in this locality.

A frequent visitor to the settlement in the early days was the famous character in Ohio history, known as Johnny Appleseed (John Chapman). He is given credit for planting some of the old apple orchards in the county, and at one time owned two lots in the original plot of the village. These lots were located at the end of S. Main St., next to the river.

Knox County, of which Mount Vernon is the county seat, is one of the richest agricultural counties in the state and leads in the raising of pure--bred sheep. It is one of the largest sheep raising counties in Ohio.

Mount Vernon is located on the Wheeling--Chicago division of the CSX (Chessie System) Railroad. It is also located 90 miles from Cleveland and 45 miles from Columbus, giving daily direct connections to the great market centers. Sixteen motor freight lines give intra and interstate service, daily pick--up and delivery of air freight and express.

Mount Vernon has two banks and two building and loan associations.

Pierce Hall, Kenyon College

The educational facilities of Mount Vernon are excellent with seven elementary schools, the middle school and the high school which named their "Paul Lynde Theatre" for one of its former citizens, who was a well--known theatrical and TV personality. The Knox County Joint Vocational School has courses covering high school subjects, business, trade and industrial skills (day--eve. classes). The Catholic and SDA grade schools are of a very high standard. The Mount Vernon Academy operated by the Seventh--Day Adventist Church at nearby Academia is well and favorably known, and draws students from all parts of the world. Five miles east at Gambier, is Kenyon College. It is Co--Educational. Many famous men in American life were graduates from Kenyon College, including President R. B. Hayes and Edwin M. Stanton.

Mount Vernon Nazarene College (a 4--year Liberal Arts College) opened in October of 1968. Presently it has an enrollment of 1100 students.

Mount Vernon Senior High School

KNOX COUNTY JOINT VOCATIONAL SCHOOL

Mount Vernon is honored in the history of America's national music, being the birthplace of Daniel Decatur Emmett, immortal as the author and composer of "Dixie," that song so beloved of the Southland, and now one of the national songs of a re-united people. His last resting place in beautiful Mound View Cemetery is a shrine for all who honor and revere his memory.

Mount Vernon is known as "Ohio's Colonial City." Millions of dollars in Colonial architecture provide Mount Vernon with a tourist attraction that is becoming increasingly important. City Directory Advertisers

By having and using your own copy of the local City Directory, you can positively identify—and reach—the kind of person, business firm and family that are most likely to be in the market for the type of product or service that you sell. Through the City Directory you'll be reaching the individuals and businesses with the top purchasing power in your community...those who consistently buy when they want to buy, not when they have to.

By advertising in your local City Directory, you can make sure these same people can identify and locate YOU.

You join with the backbone of your community business life: you become an integral part of the permanently established, successful firms in your community when you advertise in your local City Directory. This is prestige advertising without the financial penalties normally associated with prestige advertising.

Out of Sight!
Out of Mind!
Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages.

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Use Our Library of

OUT - OF - TOWN CITY DIRECTORIES

A complete library of out - of - town City Directories is maintained especially for the reference use of our subscribers. We invite you to consult this library of up-to-date Directories when in need of names, addresses, and other information about firms and individuals in other cities. This is a part of our service to local City Directory users.

ATTENTION RESIDENTS!

CORRECT INFORMATION

IS VALUABLE TO YOU!

Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

**If you think
your business is so good
you don't have to advertise
... you could be in trouble.**

NUMERICAL TELEPHONE DIRECTORY

The Telephone Numbers, names and addresses in this Directory were supplied to us during our regular door to door canvass.

This Directory is designed to assist you in providing additional information when only a telephone number is available.

NUMERICAL TELEPHONE DIRECTORY BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads—especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Directory will assist in determining correct firm name and address. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the full name and address of the subscriber—with this information combined with other sections of your City Directory, you may quickly establish such information as wife's name, place of employment, job title, business address and business telephone number.

Don't Use An Old Directory!

One address taken from an old Directory may send you miles out of the way and waste a whole day's time. You take pride in keeping a fresh stock of merchandise on your shelves—

**Why not avail yourself
of fresh information
for your daily use?**

A STATEMENT OF ADVERTISING PRINCIPLES

- 1. Good Advertising** ~ aims to inform the consumer and help him to buy more intelligently.
- 2. Good Advertising** ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
- 3. Good Advertising** ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
- 4. Good Advertising** ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)

The City Directory

represents the City and its
institutions in every cor-
ner of these United States

Are You Properly Represented In It?

The Classified portion
catalogues the professions
and goods handled here

ARE YOU LISTED UNDER YOUR PROPER HEADING
SO THE PROSPECTIVE BUYER CAN FIND YOU?

“Think It Over”

Select and sell from your **CITY DIRECTORY**

IDENTIFY EACH PROSPECT

- by neighborhood, area, section of city
- by occupation, job title, marital status
- homeowner/renter/new occupant

No other source provides so much vital information about the residents of your community. Use it to compile a prospect list.

FAIR PRACTICE CODE

for ADVERTISING and SELLING

recommended by the COUNCIL OF BETTER BUSINESS BUREAUS

- I. Serve the public with honest values.
- II. Tell the truth about what is offered.
- III. Tell the truth in a forthright manner so its significance may be understood by the trusting as well as the analytical.
- IV. Tell customers what they want to know - what they have a right to know and ought to know about what is offered so that they may buy wisely and obtain the maximum satisfaction from their purchases.
- V. Be prepared and willing to make good as promised and without quibble on any guarantee offered.
- VI. Be sure that the normal use of merchandise or services offered will not be hazardous to public health or life.
- VII. Reveal material facts, the deceptive concealment of which might cause consumers to be misled.
- VIII. Advertise and sell merchandise or service on its merit and refrain from attacking your competitors or reflecting unfairly upon their products, services, or methods of doing business.
- IX. If testimonials are used, use only those of competent witnesses who are sincere and honest in what they say about what you sell.
- X. Avoid all tricky devices and schemes such as deceitful trade-in allowances, fictitious list prices, false and exaggerated comparative prices, bait advertising, misleading free offers, fake sales and similar practices which prey upon human ignorance and gullibility.

(h) HOUSEHOLDER

Four major directories in one volume:

- 1 Classified Business Directory . . . the names and addresses of all business and professional firms listed under appropriate headings.
- 2 Alphabetical Directory . . . all adult residents including: name—marital status—address—occupation—employer—householder or resident—retiree—student—member of Armed Services. AND . . . all business and professional firms including: Firm name and address—officers—owners—partners—managers—products or services.
- 3 Street Directory of Householders and Businesses . . . Every street address including: Individual Householder—telephone number—homeowner or renter—new resident—apartment building—business firm—type of business—office building—street description—intersecting streets—ZIP codes.
- 4 Numerical Telephone Directory . . . Telephones in number sequence including: Individual name—business firm name—pay telephones.

Be certain that everyone in your organization is carefully instructed and thoroughly familiar with the information it contains and how to use it. To assist you, the publishers have included detailed instructions on the opening pages of each of the four Directories which should, in a general way, familiarize each user with its contents and applications.

Also, should you desire additional copies of these instructions, please write the publisher at the address in the front of your Directory.
